

Desigual.

LIST OF MANUFACTURING FACTORIES (TIER 1)

At Desigual, we want to ensure the traceability and transparency of our supply chain. Which is why, in 2019, we decided to push this goal forward by positioning our suppliers as one of the fundamental pillars of our 2020–2023 Sustainability and CSR Plan.

The complexity and characteristics of our products and our distribution model require a collaboration system to be established with a broad network of approved and specialised suppliers. We want to make sure all of them comply with our standards regarding product quality and safety, respect for the environment and human rights, and compliance with standards for fair working conditions. To do this, we have developed various tools and we conduct periodic auditing processes with our suppliers.

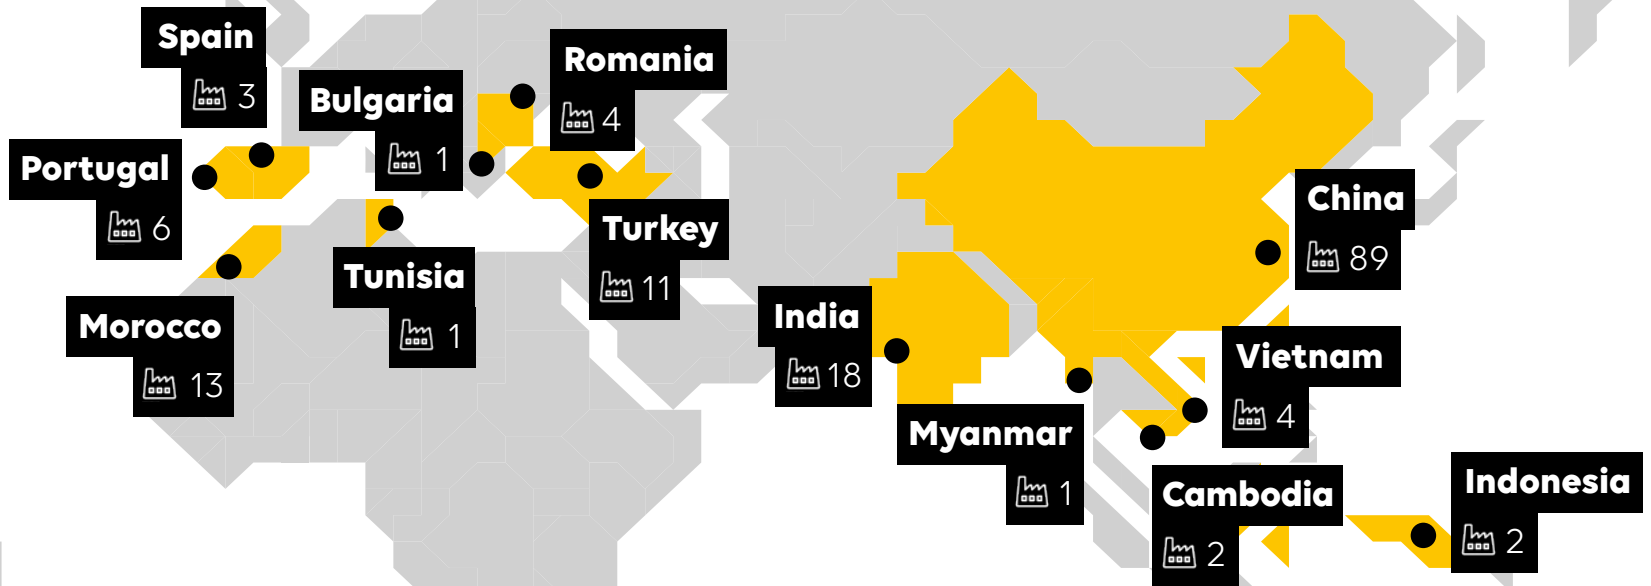

Furthermore, we collaborate with global entities who help us to fulfil our objectives for transparency and sustainability. Among them is Amfori, a group of companies that aim to improve the social performance of supply chains with regard to aspects such as fair compensation for employees and the absence of child labour.

We also recently joined Sedex, an international organisation which drives improvements in business practices from the standpoint of sustainability, responsibility and ethics in global supply chains by providing us with tools, services and an international community network.

Therefore, we are extending our “Love the World” philosophy to all our suppliers, a declaration of intent (supported by tangible actions) which serves as the framework for the long-term targets and objectives we have set ourselves in terms of our social and environmental performance. This way, we can ensure they share our corporate values and principles.

As part of this commitment, we want to make public our list of manufacturing factories (Tier 1) that are currently actively producing for Desigual across the world.

Map of international presence of (Tier1) factories manufacturing for Desigual
